I have explained to the client(s) the following:

- searches will be conducted at a credit reference agency not only for the client(s) but also anyone financially associated with them and for any addresses linked to them, and;
- the results of these searches will not be disclosed to any third parties;
- where a CAIS credit search is conducted, record of an Application Search (also known as a "hard footprint") will be registered with a credit reference agency whether or not the enquiry proceeds, and;
- if an application for credit is subsequently made, record of a further Application Search will be registered by, or on behalf of the mortgage lender, and;
- records of Application Searches will be visible, on the client(s) credit file, to other organisations when applying for credit in the future, and;
- large numbers of 'Application Searches' conducted within a short period may affect other organisations' decisions to provide credit to them.

I confirm that I have consent from the above named client(s) for their data to be passed to Enterprise Broker Services Ltd in order to conduct an Application Credit Search for the purposes of sourcing a mortgage solution.
